

Realtor®

Bill of Rights

Evergreen State Builders communities are Realtor® friendly and have established this Bill of Rights. The purpose of the Bill of Rights is to put in to writing our intentions in dealings with outside Realtor's® and what a Realtor® can and should expect when dealing with Evergreen State Builders. Our general principle is total cooperation and make showing and selling a Evergreen State Builders home an easy and positive experience for bout Realtor® and buyer.

We honor your relationship with your client. They are your client's and we are here to assist you as much or as little as you choose. Our dedicated on-site sales team is paid on all sales - even those made by the Realtor® community. Therefore, we will never compete with you in representing the Buyer.

We will provide all the current information on products available and will provide you with pricing, completion dates, features and options for each available home. If you need, we will provide you with a complete package of documentation.

We will always inform you of your client's visits to the sales office and model when you are not present. We want you informed and will keep you updated regularly.

We will not allow for surprises to take place. Our goal is to understand any possible problem in advance and communicate it to you in a timely manner. We would expect the same cooperation in return.

We pay commissions at the close of escrow.

We are available to answer all you questions seven days a week and will always make your transaction a memorable experience. You have our promise on that.....

Dan Kelley
